In the l st Congress this bill did not meet with Democratic favor, because the Democrats were then in the ma-jority in both houses of Congress, and naturally they wanted to keep the control of the count and the decision of the contest in Congress, because the election of 1880 was just ahead. His English wife did not make so face. His Foglish wife did not make so agreeable an impression, as from the first she was voted "queer." She is a fat, red-faced woman, with sore eyes and red hair. It was not, however, her personal appearance so much as her obtrusive and innate vulgarities which gave rise to the gossip, which was at first only whispered, but which has been openly discussed since the return of the family to this city, after a sojourn at Newport during the summer. It is also said that Mr. Bartholomei was a favorite of the late czar, who was not such a paragon of virtue as to be shocked at the immoralities of others, so that the liaeson which existed between his favorite, and the person who was not then his wife, was no bar to diplomatic promotion.
